

REMARKS

The catalyst tetrakis(triphenylphosphine) palladium of Synthesis Example 2 at page 40, line 13, finds support in the catalyst listed on page 33, line 23.

The drawing figures 1-4 show the four differential thermal analysis charts and therefore find support for this change.

No new matter is believed to have been added. An action on the merits and allowance of the claims is respectfully requested.

Respectfully submitted,
